

Passport to Purpose Program

Fields of Glory International Missions Training Center

Designed for those who have a calling to missions, possess a passport but do not know the way to fulfill their purpose!

WHAT MAKES US DIFFERENT?

- The Passport to Program is a 5-month program, designed around the specific calling of each student. This is not a mission's team approach.
- One on one mentorship in class and in hosting country.
- The Externship Program country and ministry assignments are matched by the Students Calling to a ministry functioning in that type of ministry.
- Students will be assigned their hosting ministry in week two of class and begin to communicate with their host immediately to build a rapport. This also helps the student when entering their assigned country to have a familiar and friendly face awaiting their arrival.
- The student will perform a 4 to 6-week Externship Program in their assigned location. These locations have long standing relationships with the Director as solid ministries.
- The student selects the dates that they can travel for their Externship Program.
- Our hosting ministries cover ALL STUDENT EXPENSES: food, accommodation, in-country transit and security. The exception is for personal items or souvenirs.
- Academics are 10 transferrable college credits from the Missions Training Center to Epic Bible College and Graduate School.
- Epic Bible College and Graduate School has partnered with the Center for a total of 16 college credits, the remaining 6 are completed at Epic.
- The Academic Portion of the Externship Program is conducted by Epic Bible College while the hands-on portion is monitored and implemented by FOGI MTC.
- The center has African Instructors that possess a Bachelor's Degree and higher that conduct the majority of the classes. This provides students the opportunity to interact with the culture in advance of the externship. Any other instructors must possess African Missions experience.
